Congresswoman Matsui Statement on the House Energy and Commerce Committee Organizational Meeting

WASHINGTON, D.C. – Today, Congresswoman Doris Matsui (CA-06) issued the following statement following the House Energy and Commerce Committee Organizational Meeting of which she serves as a member:

“Today the House Energy and Commerce Committee met to formally adopt the Committee Rules and Subcommittee Jurisdictions. As a member of the Energy and Power, Communications and Technology, and Environment and the Economy subcommittees I will help ensure we grow our economy and pursue policies that will continue to move our region and our nation forward. I look forward to working closely with my colleagues on the Energy and Commerce Committee in a bi-partisan manner to address the many critical issues facing our economy and our nation, including economic development, health care, climate change, clean energy, and technology.”
